

Cosmopor® E

A self-adhesive highly absorbent dressing that is kind to the skin.

Ideal for post-operative wound management.

- Cosmopor® E has an absorbent pad that cushions and protects the wound.
- Pad is covered with non-adherent layer to prevent it from sticking to the wound, protecting the wound bed and allowing for pain-free dressing changes.
- Pad and surface layer are mounted on a soft, air-permeable support.
- Wide, continuous adhesive border ensures good closure and protection against contamination.
- Polyacrylate adhesive is hypoallergenic and well-tolerated.
