Features and benefits

Anatomical 3D knit design

to help provide effective and targeted compression (20-36mmHg, medical standard) and support

Breathable, elastic, soft knit

for enhanced comfort

Compression-reduced edges

help divert pressure at the ends of the support to provide a comfortable fit

Two anatomically contoured ankle pads

help protect, stabilize, and relieve the malleoli

Adjustable ankle strapping

works like functional tape to help provide added compression, stability, and a custom fit

Visual graphics around the malleoli

to help ensure correct application of the support
