Comfort for even the most fragile skin

3M™ Caviion™ Professional Skin Care Products

You can trust the full line of Caviion Professional Skin Care products to provide simple, soothing relief for vulnerable skin. Caviion products can help prevent skin damage and protect skin affected by diabetes, incontinence, ostomy care or chronic wounds.

Caviion brand moisturisers and moisture barriers were designed to help:

- Simplify your skin care regimen
- Maintain and support skin integrity
- Provide comfort and convenience to clinicians, patients and families

Take Comfort in Proven Protection

3M™ Cavilon™ No Sting Barrier Film

A completely alcohol-free, sting-free liquid barrier film that dries quickly to form a breathable coating to protect damaged or intact skin from bodily fluids, adhesive trauma, friction and incontinence. Cavilon

No Sting Barrier Film is transparent, allowing continuous visualisation and monitoring of skin at risk for breakdown. The unique formulation provides long-lasting protection. It does not transfer to, or interfere with, diapers or continence briefs possibly minimising the need to change failed briefs, linens and associated products.

- Protects intact or damaged skin from bodily fluids, adhesives and friction
- Long-lasting, for more comfortable and cost-effective care
- Sterile, non-cytotoxic
- Alcohol-free, sting-free
- Hypoallergenic
- CHG compatible

Strong Clinical Evidence

3M sponsored the largest health economic study for incontinence dermatitis prevention and found that use of Cavilon No Sting Barrier Film three times weekly is as effective in preventing incontinence-associated dermatitis as products that require application after each episode of incontinence.* The same study found that a skin damage prevention regimen using Cavilon No Sting Barrier Film three times per week had a significantly lower total cost than other product regimens.*

Cavilon No Sting Barrier Film
has more clinical evidence
than any other moisture barrier or barrier film.

* Bliss D, et al. An economic evaluation of four skin damage prevention regimens in nursing home residents with incontinence. *Journal of Wound Ostomy and Continence Nursing*. 2007; 34(2): 143-152.

Long-Lasting Comfort & Protection

3M™ Cavilon™ Durable Barrier Cream

A concentrated cream that provides durable, long-lasting protection from body fluids while moisturising the skin. Unique, polymer-based formula provides a breathable barrier to promote skin health in patients at

risk for skin damage from incontinence. The cream vanishes into the skin, does not clog briefs or diapers, and resists wash off.

Using Cavilon Durable Barrier Cream regularly on intact skin can help prevent breakdown caused by regular exposure to urine and stool.

- Unique, polymer-based formulation
- Resists wash off—eliminates need for frequent reapplication
- Allows tapes and dressings to adhere
- Contains Dimethicone for skin protection
- Hypoallergenic
- CHG compatible
- Concentrated—requires less frequent application and less product with each application
- Now fragrance-free
- Now available in a single-use sachet

Concentrated and
durable formulation
may save nursing time and supplies.

Replenish
Relieve
Restore

3M™ Cavilon™ Extra Dry Skin Cream

Formerly 3M™ Cavilon™ Foot & Dry Skin Cream

A moisturising cream ideal for individuals with diabetes or other dry skin conditions. The pH balanced, lipid-rich formula lasts 24 hours to soften and relieve rough, cracked, or scaly skin.

- Ideal for diabetic foot care
- Hypoallergenic
- Latex Free

3M™ Cavilon™ Moisturizing Hand Lotion

Formerly 3M™ Cavilon™ Moisturizing Lotion

A moisturising lotion designed for Health Care Professionals to help maintain or restore skin's natural moisture and pliability between hand washings. It can be used under latex gloves and does not affect the

activity of chlorhexidine gluconate (CHG) hand antiseptic products.

Cavilon Moisturizing Hand Lotion is compatible with the 3M™ Avagard™ family of products.

- CHG compatible
- Hypoallergenic
- Fragrance Free
- Latex Free

You can count on Cavilon Professional Skin Moisturisers to help maintain and
support skin integrity,
providing **convenience and comfort**
to clinicians, patients and families.
